### *About Us*

The West East Institute is a global scientific and academic learned society founded in 2012 for the purpose of disseminating the latest academic research on various business, economics, and social sciences-related topics. The scope of our mission has expanded to include many areas of academic knowledge, including geography, education, culture, and more.

Having established *the Journal of WEI Business and Economics* and *the West East Journal of Social Sciences* over 6 years ago, The West East Institute is becoming known for publishing quality research for the benefit of the global academic community. We also sponsor several international conferences annually attended

by a diverse array of academics and professionals from many nations, cultures, and religions around the world. These conferences are intended to promote excellence in academic research and provide a platform for academics and researchers to share their completed and ongoing research and network with colleagues. It is also a welcoming environment for graduate students to present their work and receive valuable feedback.

Each conference has two broad tracks: Business, Economics, Finance, & Management; and Education, Humanities, & Social Sciences. At our conferences, not only may many nations of the world be seen in each session meeting room, but a diverse array of topics of *enquiry* may be encountered.

Our publications and conferences represent the community of nations. Diversity of culture, ethnicity, and religion is paired with a common, unifying purpose of excellence in science and philosophical *enquiry*. We look forward to seeing you soon at one of our several conferences held around the world each year!

Dr. Rutherford Johnson, PhD, FPRS, FRGS  
University of Minnesota  
General Conference Chair  
*West East Institute*

- Accounting
- Auditing
- Banking
- Business Education
- Business Ethics
- Business Information Systems
- Business Law
- Business Teaching Methods
- Diversity Management
- E-Commerce
- Economics
- Health Economics
- Energy economics
- Energy Policy
- Engineering
- Finance
- Human Resources

- Information Systems
- International Business
- Public Relations for Business
- International Energy Development & Usage
- Management
- Management Theory
- Strategic Management
- Marketing
- Organizational Behavior
- Service Science
- Supply Chain Management
- Taxes

### Topics for Education and Teaching Conference

Topics include, but are not limited to:

- Accreditation
- Blended Education
- Business Education
- Contemporary Issues in Education
- Curriculum
- Distance Education
- E-Learning
- Early Education
- Engineering Education
- ESL
- Health Education
- Higher Education
- Information Science
- International Education
- K-12 Education
- Language
- Language Education
- Music Education
- Professional Development
- Educational Policies
- Science Education
- Secondary Education
- Special Education
- Teaching and Learning
- Teacher Education
- Teaching Method

### Topics for Humanities and Social Sciences Conference

Topics include, but are not limited to:

- Accreditation
- Anthropology
- Arts & Humanities
- Blended Education
- Business Education
- Contemporary Issues in Education

- Culture
- Curriculum
- Distance Education
- E-Learning
- Early Education
- Engineering Education
- ESL
- Globalization
- Health Education
- Higher Education
- History
- Human Rights
- Information Science

- International Education
- K-12 Education
- Language
- Language Education
- Literature
- Multidisciplinary Studies
- Music
- Politics
- Popular Culture
- Professional Development
- Psychology
- Public Policy
- Religious Studies
- Science Education
- Secondary Education
- Social Sciences
- Sociology
- Special Education
- Spirituality
- Sport Science
- Teacher Education
- Teaching Method
- Tourism
- Urban Studies

### Topics for Technology and Science Education

Topics include, but are not limited to:

- Analytics
- Assessment Software Tools
- Augmented Reality
- Blended Learning
- Classroom Technology
- Cloud Computing
- Computer Education
- Computer-Aided Assessment
- Cybersecurity
- Data Mining
- Data Visualization
- Digital Divide
- E-Learning

- Education Curriculum Research And Development
- Education Technology
- Innovation
- Learning Management Systems
- Learning Models
- Lifelong Learning
- Metrics and Performance Measurement
- Online Technology
- Open Educational Resources
- Pedagogy Enhancement with E-Learning Security
- Technology Enhanced Learning
- Technology in Education
- Technology in Higher Education
- Tutoring, Documentation Systems
- Archaeoastronomy
- Astrobiology
- Astrochemistry/Cosmochemistry
- Astronomy
- Biology
- Classical Mechanics
- Condensed Matter Physics
- Cosmology
- Electromagnetism and Electronics
- Engineering Education
- Forensic Astronomy
- Geology
- Interdisciplinary Fields
- Mathematics
- Meteorology and Climatology
- Micro-g Environment Research
- Oceanography
- Optics, and Atomic, Molecular, and Optical Physics
- Physics
- Planetary Science
- Quantum Mechanics
- Relativity
- Science Education
- Space Archaeology
- Space Architecture
- Space Medicine
- STEM
- Thermodynamics and Statistical Mechanics
